PROFESSIONAL SUMMARY

Computer Science and Technology undergraduate at Uva Wellassa University with hands-on experience in web development, UI/UX design, and desktop application development. Builds responsive web interfaces and practical software projects using React, JavaScript, PHP, Laravel, Java, and MySQL. Also has experience with freelance client work and introductory hardware/robotics projects. Seeking a software engineering or web development internship to contribute to real-world projects and continue developing technical skills.

TECHNICAL SKILLS

Programming: Java, JavaScript, PHP, C
Web Development: React.js, HTML5, CSS3, Tailwind CSS, Laravel, Node.js
Databases: MySQL, local database integration
Design: Figma, UI/UX design, responsive web design
Cloud & Tools: Google Cloud Platform, AWS, Docker
Hardware: Arduino, STM32, PCB design

EDUCATION

Uva Wellassa University of Sri Lanka | Expected August 2028
Bachelor of Science in Computer Science and Technology

G.C.E. Advanced Level — Physical Science Stream
Z-Score: 1.0500

PROJECTS

MediStock AI (MedCare Assist)
Technologies: PHP, Java, MySQL, OCR, AES-256 encryption

- Contributed to an academic medicine availability and emergency medical support application.
- Worked on prescription-scanning functionality using optical character recognition (OCR).
- Applied AES-256 encryption to help protect sensitive patient and database records.

Thilaka Motors Desktop-Based POS System
Technologies: Electron.js, Node.js, JavaScript, local database

- Developed a desktop point-of-sale system for Thilaka Motors.
- Implemented inventory and stock management, customer billing, and monthly financial reporting features.

Thilaka Motors Business Website
Technologies: React.js, Tailwind CSS, Figma

- Designed the website interface in Figma and developed a responsive business website for a garage.
- Focused on usability, visual hierarchy, mobile responsiveness, and search-engine-friendly page structure.

EXPERIENCE

Freelance Web Developer & UI/UX Designer
Fiverr | 2023–Present

- Create web development work and UI prototypes based on client requirements.
- Translate client briefs into implementation tasks and deliver work to agreed deadlines.

ACTIVITIES

Google Cloud Arcade: Participating in hands-on cloud learning activities and completing practical learning challenges.
Tech Content Creator: Create technical content related to web development, Arduino, and freelancing for the “Binada Dewndara” YouTube channel and “CyberTec Hub” blog.
